Thanks Chief Exec Office

At the moment BIS are refusing to allow us to publish their view, but I'm working on some words they may find acceptable for us to use. In the same way DfT do not want their view made public!!

The version to be sent out for PAG sub on Monday will be sent out later today.

Hope you are having a relaxing time

Hi

This is a really good first draft. Will we get a definitive view from BIS to go into the report? This would certainly help to complete the picture.

I'll have a look at the next draft once it is available.

Thanks,

Dear all

This is still a work in progress, but here is the draft scrutiny report and York Aviation draft report for comment and discussion tomorrow.

Thanks

Jane McDermott

This is the one to send to [redacted], your point 3 will be discussed with York, I'm sure we can get them to bring something together 'in their professional opinion etc...'.  
 [redacted]

I've kept the date as the 25<sup>th</sup> which is the date for the final version but we have their second draft submitted today.
